ALF ENGINEERING PVT. LTD

Automation of ZMIGO (555 Mov.) & MIGO_TR (349 Mov.) Transaction

(User manual)

Version : 1.0

Date : **29.07.2024**

Prepared By : Bhushan Jadhav (IT)

Location : ALF ENGINEERING_NASHIK

1. Introduction

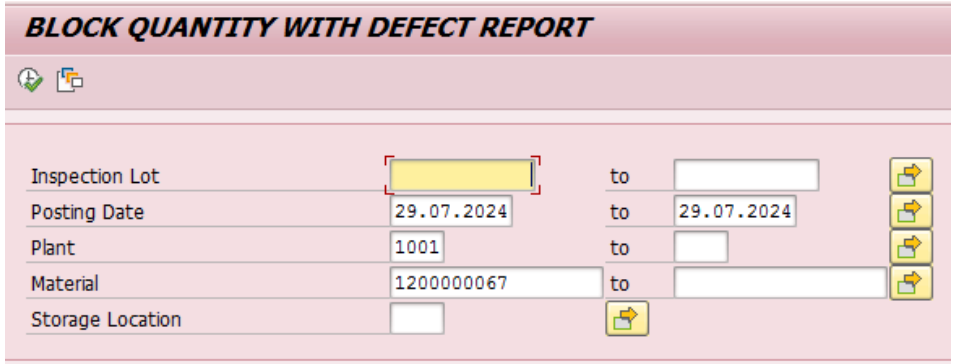
This document is intended to provide detailed instructions for “Automation of ZMIGO (555 Mov.) & MIGO_TR (349 Mov.)” transaction:

- Based on ALF Engineering Plant
- Discrete Manufactured Material

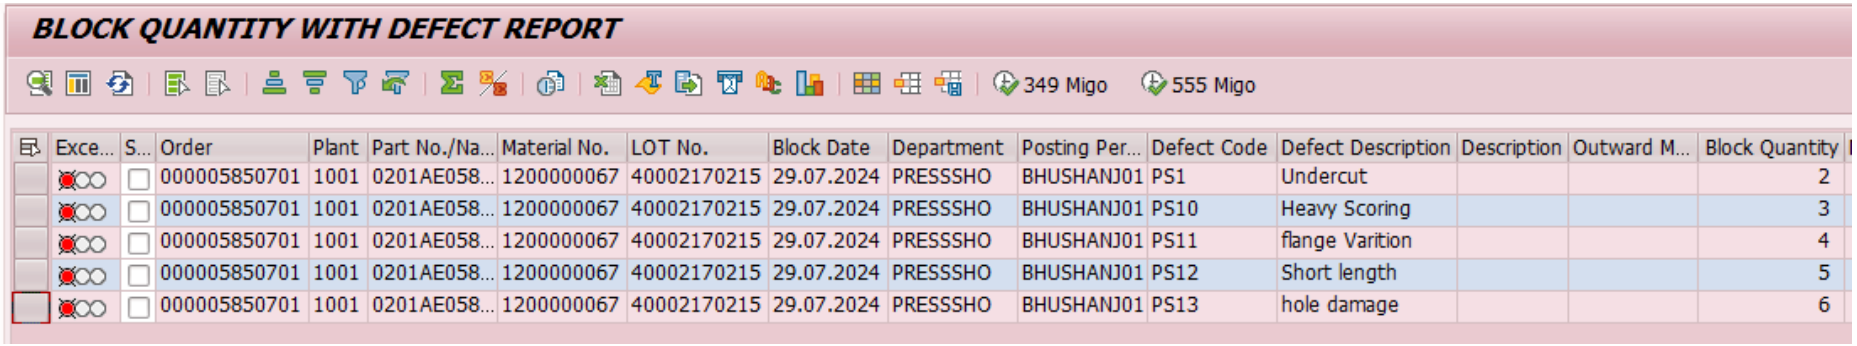
The process of Defect recording in QA32 after the production order confirmation is same. Automation is done for Rework & Rejection transaction.

STEP-1- After doing defect recording in QA32. Open the "ZBLOCK" T-code.

Give below input (As per the defects recorded in QA32)



- **Below report will be loaded.**



Exce...	S...	Order	Plant	Part No./Na...	Material No.	LOT No.	Block Date	Department	Posting Per...	Defect Code	Defect Description	Description	Outward M...	Block Quantity
		000005850701	1001	0201AE058...	1200000067	40002170215	29.07.2024	PRESSSHO	BHUSHANJ01	PS1	Undercut			2

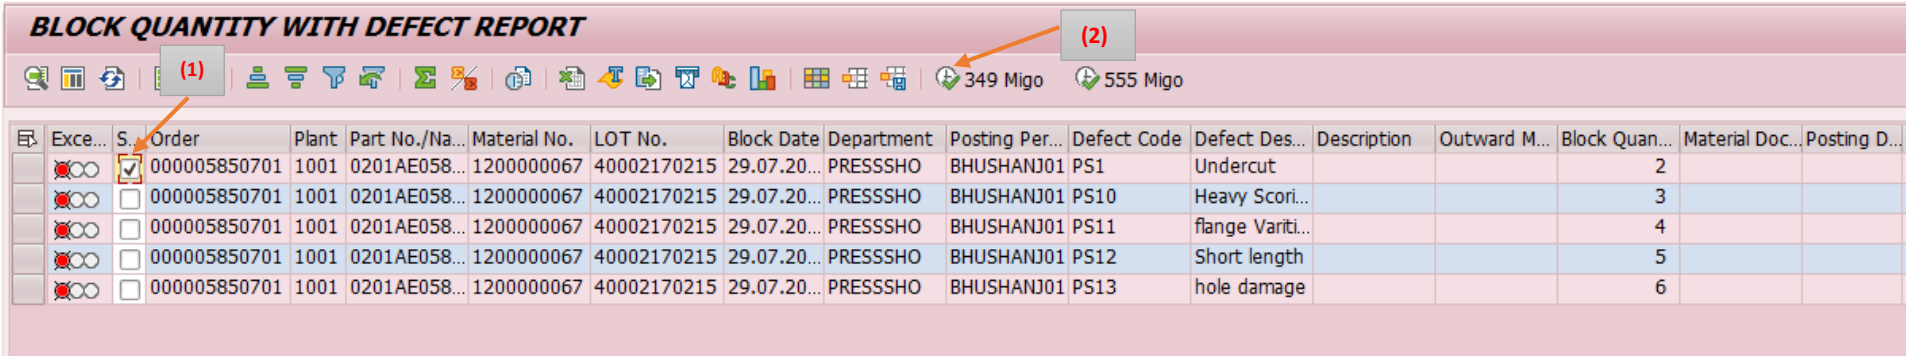
		000005850701	1001	0201AE058...	1200000067	40002170215	29.07.2024	PRESSSHO	BHUSHANJ01	PS13	hole damage			6

STEP-2-

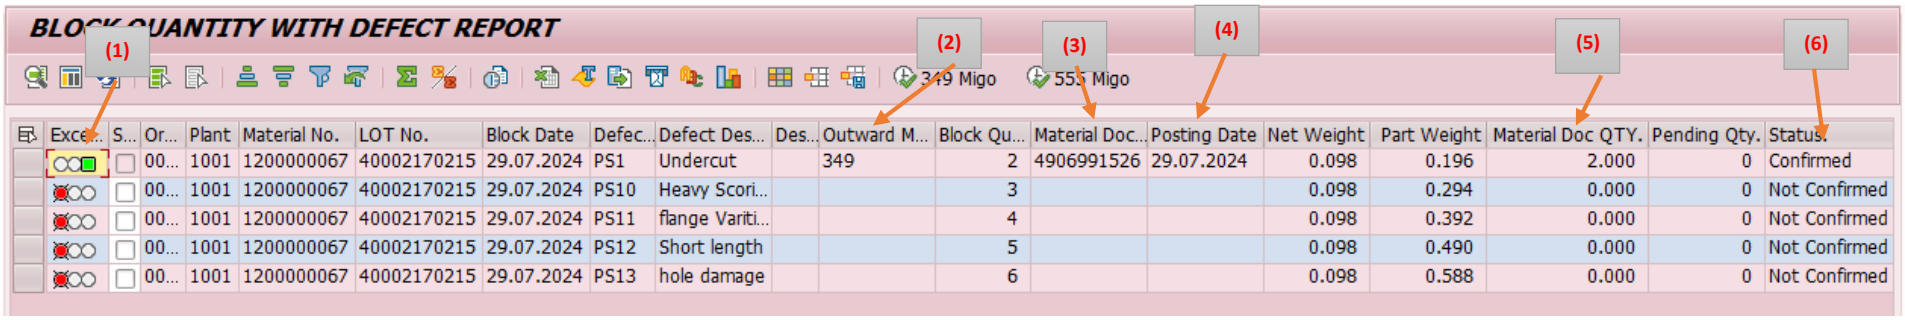
A. For executing MIGO_TR with 349 Movement (Rework transaction).



Exce...	S...	Order	Plant	Part No./Na...	Material No.	LOT No.	Block Date	Department	Posting Per...	Defect Code	Defect Des...	Description	Outward M...	Block Quan...	Material Doc...	Posting D...
	☑	000005850701	1001	0201AE058...	1200000067	40002170215	29.07.20...	PRESSSHO	BHUSHANJ01	PS1	Undercut			2		
	☐	000005850701	1001	0201AE058...	1200000067	40002170215	29.07.20...	PRESSSHO	BHUSHANJ01	PS10	Heavy Scori...			3		
	☐	000005850701	1001	0201AE058...	1200000067	40002170215	29.07.20...	PRESSSHO	BHUSHANJ01	PS11	flange Variti...			4		
	☐	000005850701	1001	0201AE058...	1200000067	40002170215	29.07.20...	PRESSSHO	BHUSHANJ01	PS12	Short length			5		
	☐	000005850701	1001	0201AE058...	1200000067	40002170215	29.07.20...	PRESSSHO	BHUSHANJ01	PS13	hole damage			6		

(1) Click on Tick box.
(2) Click on "349 Migo"

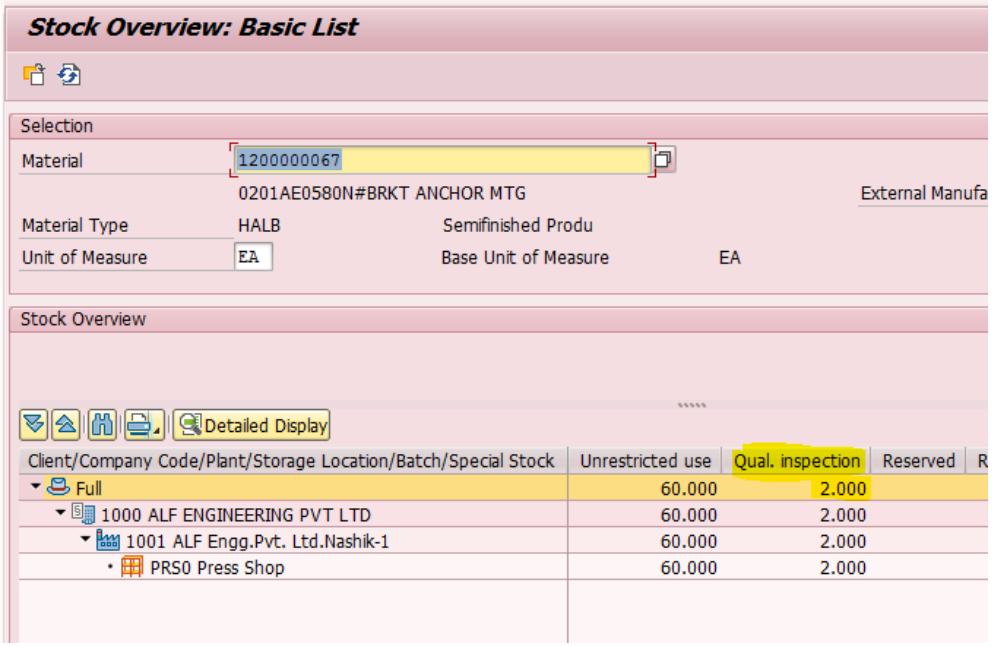
B. After Step-A, MIGO_TR with 349 Movement is automatically completed & ZBLOCK report is also updated as shown in below fig.



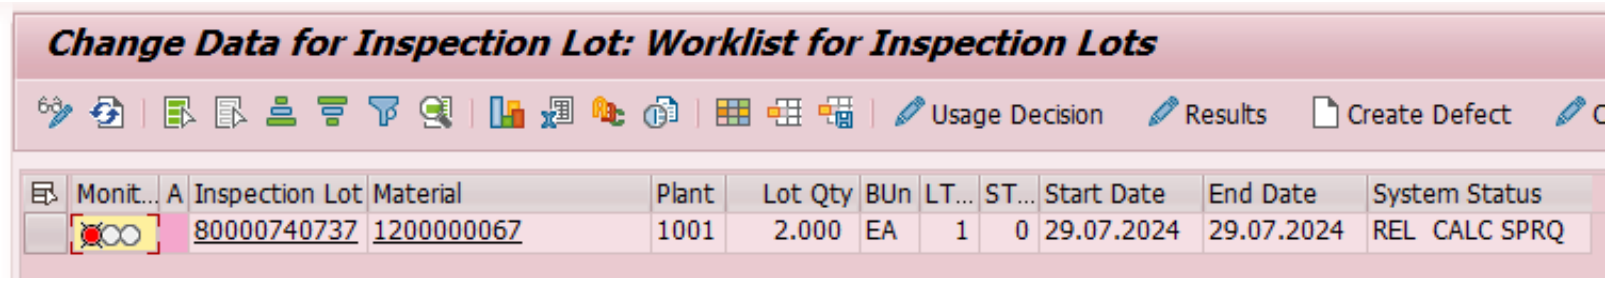
Exce...	S...	Or...	Plant	Material No.	LOT No.	Block Date	Defec...	Defect Des...	Des...	Outward M...	Block Qu...	Material Doc...	Posting Date	Net Weight	Part Weight	Material Doc QTY.	Pending Qty.	Status.
	☐	00...	1001	1200000067	40002170215	29.07.2024	PS1	Undercut		349	2	4906991526	29.07.2024	0.098	0.196	2.000	0	Confirmed
	☐	00...	1001	1200000067	40002170215	29.07.2024	PS10	Heavy Scori...			3			0.098	0.294	0.000	0	Not Confirmed
	☐	00...	1001	1200000067	40002170215	29.07.2024	PS11	flange Variti...			4			0.098	0.392	0.000	0	Not Confirmed
	☐	00...	1001	1200000067	40002170215	29.07.2024	PS12	Short length			5			0.098	0.490	0.000	0	Not Confirmed
	☐	00...	1001	1200000067	40002170215	29.07.2024	PS13	hole damage			6			0.098	0.588	0.000	0	Not Confirmed

(1) Status turn to “Green”
(2) Outward Movement “349” updated in report.
(3) “Material Document” no is updated.
(4) “Posting Date” is updated.
(5) “Material Doc. Qty.” also updated
(6) Status turn to “Confirmed”

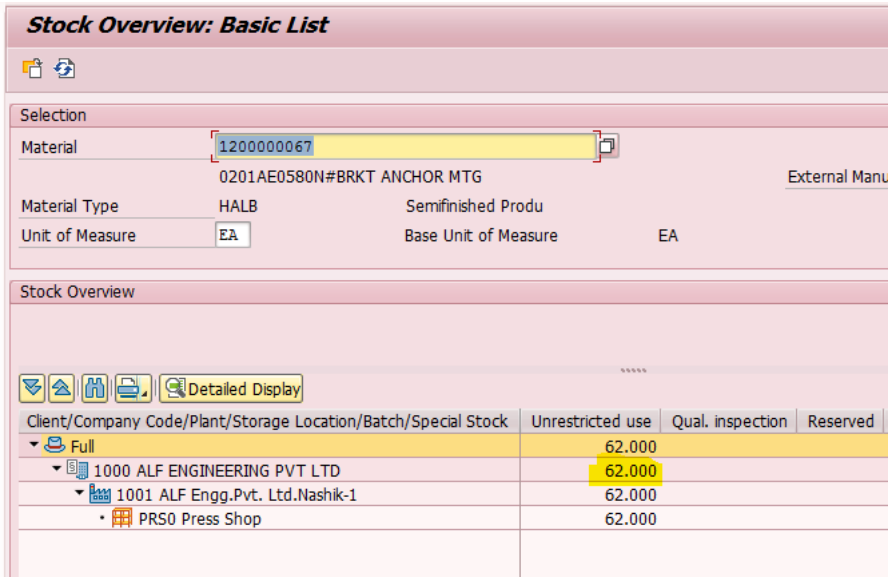
C. **After Step-B, the stock is moved from “Block” to “Quality Inspection”**



D. **After Step-C, clear the stock from QA32 by accepting the Lot with UD code "Q3" i.e. Accepted after Rework.**

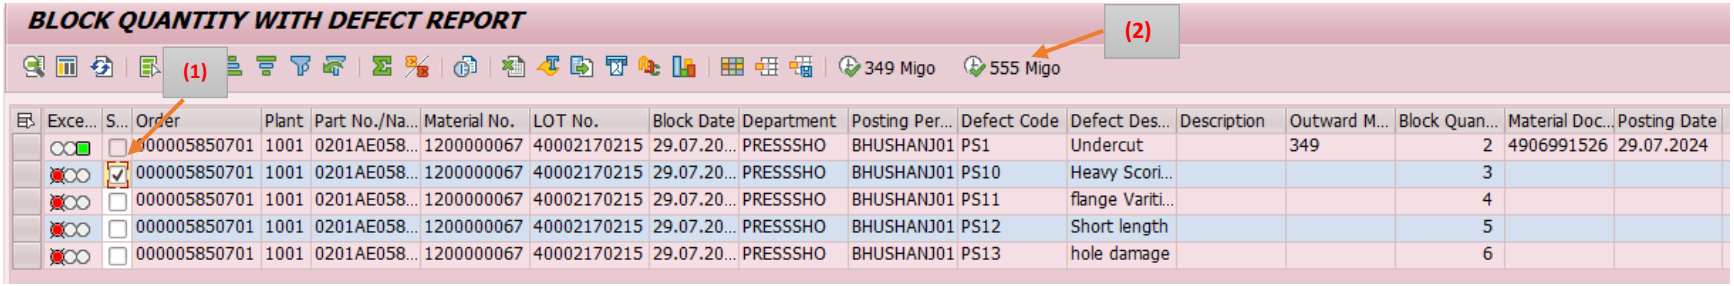


E. **After Step-D, the stock is moved from "Quality Inspection" to "Unrestricted" as shown below.**



STEP-3-

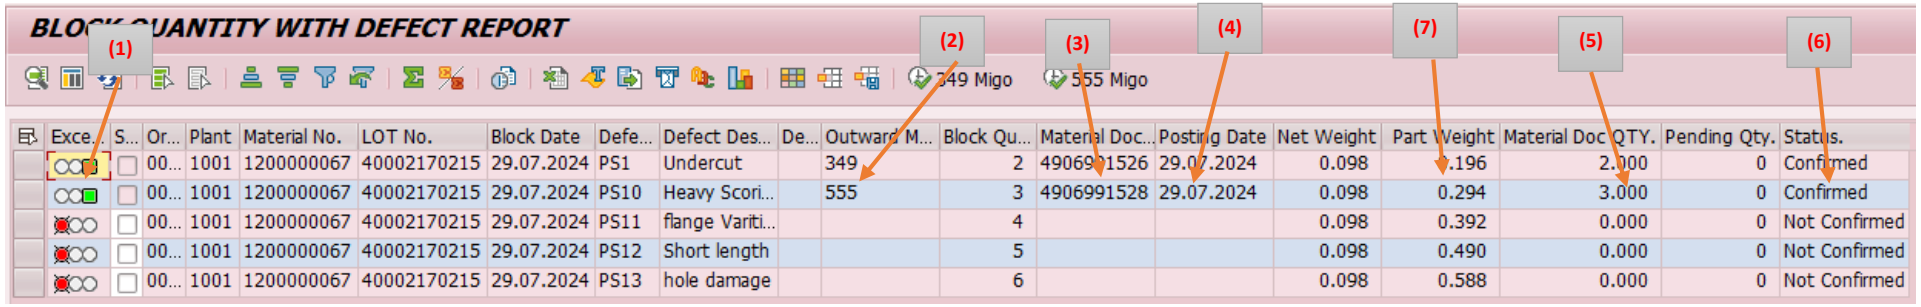
A. Similarly, for executing ZMIGO with 555 Movement (Rejection transaction).



Exce...	S...	Order	Plant	Part No./Na...	Material No.	LOT No.	Block Date	Department	Posting Per...	Defect Code	Defect Des...	Description	Outward M...	Block Quan...	Material Doc...	Posting Date
		000005850701	1001	0201AE058...	1200000067	40002170215	29.07.20...	PRESSSHO	BHUSHANJ01	PS1	Undercut		349	2	4906991526	29.07.2024
	☑	000005850701	1001	0201AE058...	1200000067	40002170215	29.07.20...	PRESSSHO	BHUSHANJ01	PS10	Heavy Scori...			3		
		000005850701	1001	0201AE058...	1200000067	40002170215	29.07.20...	PRESSSHO	BHUSHANJ01	PS11	flange Variti...			4		
		000005850701	1001	0201AE058...	1200000067	40002170215	29.07.20...	PRESSSHO	BHUSHANJ01	PS12	Short length			5		
		000005850701	1001	0201AE058...	1200000067	40002170215	29.07.20...	PRESSSHO	BHUSHANJ01	PS13	hole damage			6		

(1) Click on Tick box.
(2) Click on “555 Migo”

B. After Step-A, ZMIGO with 555 Movement is automatically completed & ZBLOCK report is also updated as shown in below fig.



Exce...	S...	Or...	Plant	Material No.	LOT No.	Block Date	Defe...	Defect Des...	De...	Outward M...	Block Qu...	Material Doc...	Posting Date	Net Weight	Part Weight	Material Doc QTY.	Pending Qty.	Status.
		00...	1001	1200000067	40002170215	29.07.2024	PS1	Undercut		349	2	4906991526	29.07.2024	0.098	0.196	2.000	0	Confirmed
		00...	1001	1200000067	40002170215	29.07.2024	PS10	Heavy Scori...		555	3	4906991528	29.07.2024	0.098	0.294	3.000	0	Confirmed
		00...	1001	1200000067	40002170215	29.07.2024	PS11	flange Variti...			4			0.098	0.392	0.000	0	Not Confirmed
		00...	1001	1200000067	40002170215	29.07.2024	PS12	Short length			5			0.098	0.490	0.000	0	Not Confirmed
		00...	1001	1200000067	40002170215	29.07.2024	PS13	hole damage			6			0.098	0.588	0.000	0	Not Confirmed

(1) Status turn to “Green”
(2) Outward Movement “555” updated in report.
(3) “Material Document” no is updated.

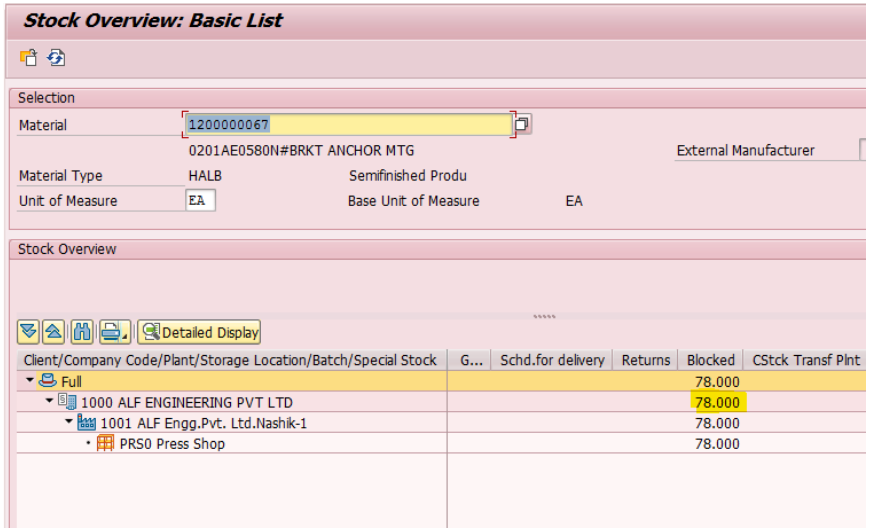
(4) "Posting Date" is updated.
(5) "Material Doc. Qty." also updated
(6) Status turn to "Confirmed"
(7) Total Part weight i.e. (Net Wt. X No. of parts) i.e. (0.098 X 3) equal to **0.294 KG.**

C. After Step-B, the stock is moved from "Block" to "Rejection" i.e 3 Qty. of Material 1200000067 is reduced from "Block" & the Total weight of that 3 Qty. is added into 1600000097 = 09999#MS SCRAP code.

D. Please find below the Before & After Screenshot of Rejected Material & Scrap material

1. Rejected Material

a. Before-



b. **After-**

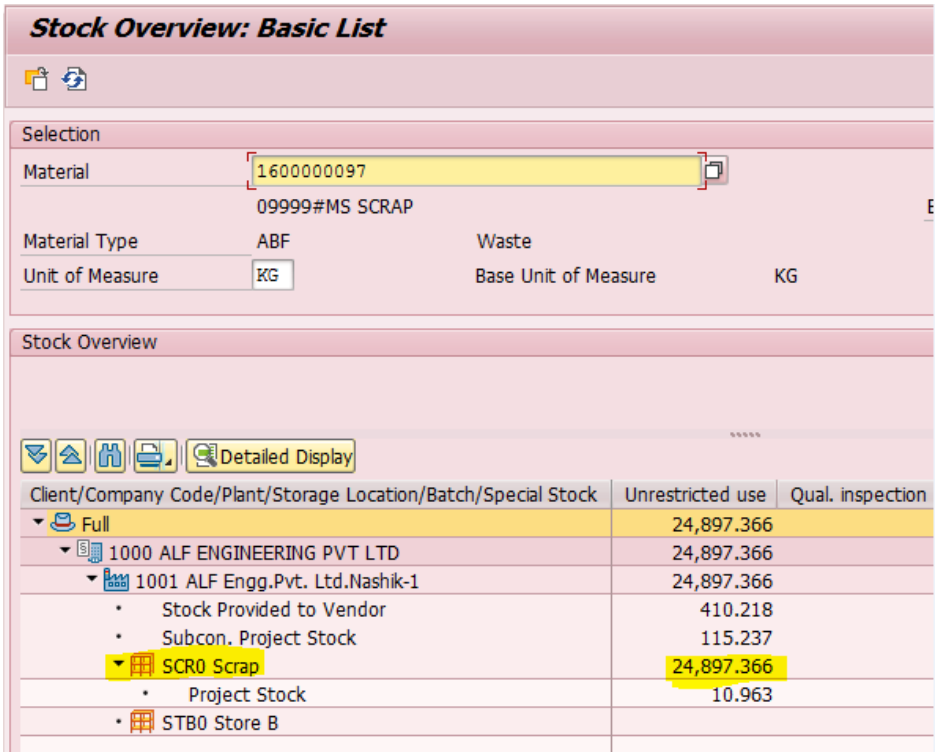
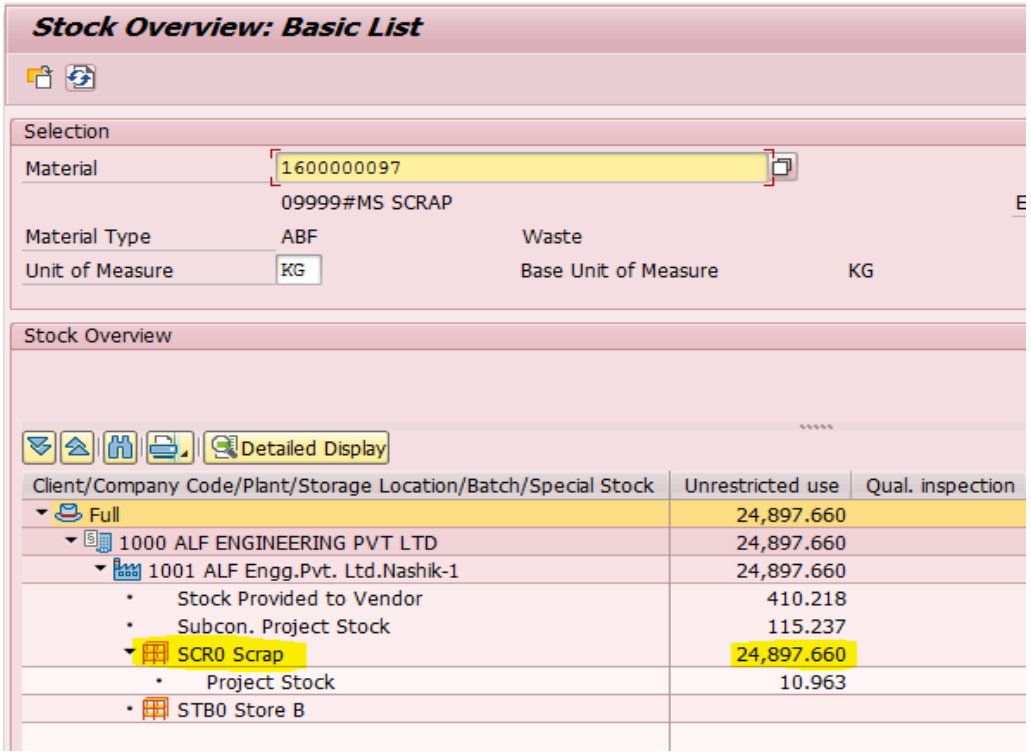
2. **Weight added in MS Scrap code**
   a. **Before-**



b. **After-**



So the stock of MS scrap Material **1600000097- 09999#MS SCRAP is added by 0.294 KG.**

i.e. Net wt. of 1200000135 = 0.098 KG

So the total weight to be added is (3 x 0.098 = **0.294** KG)

STEP-4- After doing the Rework & rejection transaction successfully the same are reflected in ZEQPPM report.
